GENERAL NOTES

1. This **Highway Schedule of Rates (HSR)** becomes operative from **14.06.2023**. HSR has given the maximum rates adoptable in the estimation of projects. In case, the resources are available at lesser rates depending on area and locality, the Engineer shall use such rates in the BOQ for the preparation of Estimates.
2. Basic prices of materials used to derive the rates in this schedule are considered **without the Value Added Tax (VAT)**.
3. The basic rates are included B0 (B-001A to B-860) are excluded with overheads and profits component and other rates are included with overheads and profits component. For the purpose of preparation of Engineer's Estimates, 20% for road works and 20% for bridge works should be added to the basic rates. Provisions should be made separately in the estimate for the payment of **VAT**.
4. Work has to be carried out as per (i) **Standard Specifications for Construction & Maintenance of Roads and Bridges (S.S.C.M.)** issued by the CIDA and (ii) **Road Maintenance Manual** issued by the RDA.
5. The description of all items in the bills shall briefly conform to that in the relevant items appearing in this schedule so as to avoid any ambiguity. Control of works, Control of material and measuring & paying shall be carried out as per S.S.C.M 104 to 106.6 However, Where provision for control of traffic and safety measures for the road users are not included under such items, rate shall be provided separately and paid under the relevant HSR BO-704/BO-705 or on approved S.S.R.R. or on closely monitored work.
6. The basic labour rates given in this schedule are inclusive of 12% E.P.F., 3% E.T.F., and the special allowances ordered by the Government.
7. **For works under Force Account, in exceptional cases, Sk "A" labour at higher rates than that given in this schedule may be engaged on adhoc basis with the GM/PRDA's prior approval only. See Annex –V for net daily wages payable to labour.**
8. For items where cement and/or steel are used, the transport of same is included in the basic price. The rate of Emulsion per liter given in the HSR is exclusive of transport and shall be paid separately.
9. All cement to be used for concrete, Structural and Masonry/Rendering work shall be of approved Quality and shall conform to the SLS.
